Ernie,

The LLC will be contracting a gentleman named Bronislav Ostrovsky (Steve) to act as the VP of Electrical Operations for the LLC. This position is granted to him so that he can carry the Electrical Contracting License for the LLC. We will pay him some nominal fee of around \$1000 - \$1500 per month for this service. To do this, we need some agreement / contract between Steve and the LLC. Do we have a standard agreement in which we can start with? What do we need to do in order to get this done?

Kind Regards,
Jeff
